Mealtime options for chubby felines

By Rebecca Sweat

Your cat's been stuffing itself silly every day, and you're concerned about how much it's eating. Maybe you noticed last time you petted your cat that there's a lot more padding than there used to be. Perhaps on your cat's last veterinary checkup you were told that your feline buddy needs to lose some weight.

Whatever the reason, you're in the market for a good weight-management diet for your cat, and you've got two main options to choose from: weight-loss diets and weight-control diets.
