Acrobatic Cats to Perform in Illinois

The rumor that cats can't be trained must have been started by a jealous dog. Samantha Martin will show how easily they follow instructions when Samantha's Amazing Acro-cats perform at 6 p.m. Monday, June 23, in Harwood Heights, Ill., the Park Ridge (Ill.) Herald-Advocate reports.

Conjunctivitis Common Threat to Young Cats

Conjunctivitis is redness and swelling of the tissues that line the eye socket. All too common in young cats, conjunctivitis is usually caused by the herpes virus, which seems to thrive when kittens are stressed, The Coloradoan (Colorado) reports.
