

Pet Identification Cards Provide Medical Records

The new pet identification card by Vetgate USA will help veterinary clinic staff.

October 11, 2005 The new pet identification card by Vetgate USA will help veterinary clinic staff increase compliance, improve customer service and communication, and streamline workflow.

The plastic card contains medical and identification information specific to each patient, including a photo. The reverse side of the card can be customized with veterinary hospital contact and emergency information, including a hospital logo. The pet identification card displays login information for securely accessing your pet's information online.
