Microchipping Event

When: 11:30 a.m. to noon, Saturday, June 3.

What: Watauga Humane Societys monthly microchipping clinic

Where: Animal Medical Center of Boone 1582 Old 421 South Boone, NC 28607

Info: Watauga Humane Society (WHS) has partnered with Dr. Cara Roten-Henson of Animal Medical Center to offer an affordable monthly pet identification microchip clinic to the public. The first microchip clinic was held Saturday, February 12th. Microchipping is the process of embedding a tiny microchip under a pet's skin. The microchip contains a unique identification number and is small enough to be injected with a hypodermic needle. When an animal enters a shelter or research facility, he or she is immediately scanned with a microchip detector. This detector reads the microchip number and displays it on a screen. The number is then called into a 24-hour hotline to identify the pet's owner. A collar and tags may be lost or removed, but a microchip is a permanent lifelong ID system. We encourage every pet owner to take advantage of our monthly microchip clinic and protect your pet. The fee is \$25 and proceeds benefit WHS. No appointment is necessary. Please bring proof of current rabies. Call (828) 264-7007.
